

Brow Lamination and Tint Aftercare

How long will a brow lamination last?

Brow lamination can last about a month but can vary from person to person.

How long will brow tint last?

Eyebrow tinting treatment will last about weeks. To keep up the colour, avoid using oil-based moisturizers, cleansers or wipe as they will dissolve tints faster.

Can I wear makeup after brow lamination?

Yes, but it is advised that you leave your brows untouched for at least 24 hours after your treatment.

How do I clean my brows?

Gently using mild products. Always wait 24 hours to do this straight after the procedure.

- Be gentle with your brows. For the first 24 hours, do NOT get them wet, do NOT touch them and do NOT rub them.
- Avoid working out, hot yoga, steam room and saunas within the next 48 hours. Avoid extreme heat.
- When showering, avoid facing the shower head directly on your face.
- Don't leave your brows wet. After you shower, you can gently dry and shape your brows using the mascara brush.
- Don't sleep on your face while it is setting in place.
- Use castor oil or coconut oil to help your brow hydrated.
- After 24 hours, you may go about your daily routines.
